Subject Index: Volume 27, 2002

Abdominal surgery
  lipolysis suppression by epidural blockade, 469
  perioperative epidural analgesia and nutrition, 6
Acute Pain Nurses, role of, 117
Acute Pain Services (APS)
  German survey results, 125
  guidelines/components for, 117
  International survey data, 117, 125
  surgeon participation, 117
Adverse events. *See also specific adverse events*
  infraclavicular block with lateral approach, 37
  risk data, confidence interval and, 207
Airway regional anesthesia, for awake fiberoptic intubation, 180
Akinesia, in peribulbar block, effect of atracurium addition to local anesthetics, 487
Allodynia, ketamine topical analgesia for, 524
Ambulatory surgery, portable pump for perineural patient-controlled analgesia, 100
Amethocaine with lidocaine, for topical anesthesia in pediatric venopuncture-induced pain, 289
Analgesia. *See specific analgesics and analgesic techniques*
Anesthetic technique
  continuous subgluteus sciatic nerve block, 168
  distribution of solution in epidural space, 150
  for hernia surgery, urinary retention and, 587, 612
  needle position, paresthesia and, 227(letter)
  posterior approach to sacral plexus, 333(letter)
  single *vs.* multiple injection, for infraclavicular plexus block, 590
Animal pain models. *See also* Rats
  anesthetized canine, myocardial depression prediction in, 460
  review of, 385
Anterior cruciate ligament surgery, preemptive multimodal analgesia for, 225(letter)
Anticoagulants, with regional anesthesia for joint replacement surgery, 112(letter)
Anticonvulsants, gabapentin. *See* Gabapentin
Apnea, postoperative, in former preterm infant, 110(letter), 111(letter)
APS. *See* Acute Pain Services
Arm surgery, brachial plexus block for, 402
Atracurium with local anesthetics, effect on akinesia in peribulbar block, 487
Autonomic symptoms in complex regional pain syndrome, intrathecal baclofen for, 90
Axillary brachial plexus block
  buprenorphine prolongation of, 162
  by double-, triple-, or quadruple-nerve stimulation, 442(letter)
  historical perspectives, 333(letter)
  percutaneous electrode guidance for, 261
  peripheral nerve stimulation and, 327(letter)
  review of, 402
  single *vs.* multiple injections for, 402
  success, paresthesia motor response and, 332(letter)

Back pain
  after obstetric epidural anesthesia, 220
  targeted epidural injection of medications for, 343
Baclofen, for complex regional pain syndrome, 90
Ball prosthesis, with peribulbar anesthesia for ophthalmic procedures, 336(letter)
Benzocaine, for airway anesthesia for fiberoptic bronchoscopy, 180
Book reviews
  Acute Pain Management, A Practical Guide (McIntyre), 338
  Management of Cancer Pain, 437
  Manage Your Pain (Nichols, Molloy, Tonkin, Beeston), 437
  Physiological Basis of Rehabilitation Medicine, 3E (Gonzales, Myers, Edelstein, Liberman, Downey), 229
Brachial plexus block
  anatomy, 402
  axillary. *See* Axillary brachial plexus block
  complications, 402
  continuous at cervical level using posterior approach, 446(letter)
  infraclavicular. *See* Infraclavicular plexus block
  interscalene, hypoxia after, 94
  opioid and local anesthetic combination for, 336(letter)
  percutaneous electrode guidance, 261
  techniques, 402
  ultrasonographic anatomy, 77
Brain, tumor necrosis factor alpha expression during neuropathic pain, 357
Bupivacaine. *See also* Levobupivacaine
  cardiotoxicity
    in intact isolated heart model, 545
    prevention of, 556
  intrathecal. *See* Intrathecal administration, bupivacaine
  with morphine
    attenuation of surgery-induced tumor promotion, 197
    for postoperative analgesia, 145
    sternal periosteal infusion, 316
  myocardial depression prediction in canines, 460
  postoperative apnea in former preterm infant, 110(letter), 111(letter)
  racemic, for caudal blockade in children, 157
  with sufentanil, *vs.* ropivacaine for thoracic epidural PCA, 367
Buprenorphine, prolongation of axillary brachial plexus block, 162
Burn injury, dexamethasone analgesic effects in, 254

Calcium channels in primary afferent neurons, gabapentin effect on, 47

Cancer pain, continuous brachial plexus block at cervical level using posterior approach for, 446(letter)
Canine model, myocardial depression prediction during anesthesia, 460
Cardiotoxicity, of local anesthetics
in intact isolated heart model, 545
prevention of, 556
resuscitation concepts for, 568
treatment of, 568
Cauda equina, leg position effects during MRI, 429
Cauda equina syndrome, after intradiscal electrothermal injury, 622(letter)
Caudal blockade, comparison of ropivacaine, levobupivacaine and racemic bupivacaine, 157
Cervical sympathetic ganglia block, for trigeminal nerve regeneration, 268
Cervico-medullary drug delivery, gabapentin dose-dependent antinociception in orofacial formalin test, 277
Cesarean delivery
hyperbaric ropivacaine with intrathecal fentanyl for, 600
intrathecal small-dose ropivacaine, high failure rate of, 533(letter)
walking spinal anesthesia for, 113–114(letter)
Childbirth. *See* Labor analgesia
Children
caudal blockade, comparison of ropivacaine, levobupivacaine and racemic bupivacaine, 157
postoperative pain
peribulbar anesthesia and ball prosthesis for, 336(letter)
sub-tenon infiltration for, 336(letter)
venopuncture-induced pain, topical anesthesia for, 289
2-Chloroprocaine
neuropathy from, 537(letter)
product labeling, toxicity risk and, 562
Chronic constriction injury, tumor necrosis factor alpha expression in brain during, 357
Chronic inflammatory demyelinating polyneuropathy (CIDP), PCA epidural analgesia for labor and delivery, 217
Clonidine
in combination anesthetic targeted epidural injection for sciatic pain, 343
postoperative apnea in former preterm infant, 110(letter), 111(letter)
preemptive analgesic effect of, 249
Cocaine, for airway anesthesia for fiberoptic bronchoscopy, 180
Combined spinal and epidural technique
epinephrine addition for, 374
for total hysterectomy in multiple sclerosis, 540(letter)
Complex regional pain syndrome (CRPS)
intrathecal baclofen, 90
type I
ketamine topical analgesia for, 524
regional cerebral blood flow in thalamus after ECT, 529
Computed tomography
of entrapped epidural catheter, 517
of subdural compartment, 72
Confidence interval, calculation of, 207
Continuous nerve blocks
brachial plexus at cervical level using posterior approach, 446(letter)
multimodal, for lumbar plexus block, 105
patient-controlled, portable pump for, 100
subgluteus sciatic nerve block, *vs.* PCA for postoperative analgesia, 168
vs. patient-controlled analgesia for knee surgery, 604
Cortisol
intra- and postoperative concentrations with epidural blockade, 469
postoperative, epidural analgesia and, 132
Cyclooxygenase-2 inhibition, potentiation of morphine antinociception at spinal level in postoperative pain model, 451

Delivery. *See* Labor analgesia
Dexamethasone, analgesic effects in burn injury, 254
Dog, myocardial depression prediction during anesthesia, 460
Dorsal root ganglion injection, using directed epidural catheter, 214
Dosage division, in preventing local anesthetic overdose, 568
Drug delivery system, neuraxial, conversion from intrathecal morphine to oral methadone, 319
Duration of anesthesia, tonicaine *vs.* lidocaine, 173

ECT. *See* Electroconvulsive therapy
Education. *See* Residency training programs
Eisenmenger's syndrome, safety of regional anesthesia in, 509
Electroconvulsive therapy (ECT)
effects on regional cerebral blood flow, 211
regional cerebral blood flow changes, in complex regional pain syndrome type I, 529
Electrothermal intradiscal injury, cauda equina syndrome after, 622(letter)
EMLA cream, for venopuncture-induced pain in children, 289
Encephalopathy, trismus associated with, mandibular nerve block for, 313
Endoscopy of caudal epidural space, for sciatica diagnosis, 343
Epidural agents, historical aspects of, 122
Epidural analgesia
in acute pain service, 125
failure, epidural lipomatosis and, 494
historical aspects of, 122
patient-controlled, for parturient with CIDP, 217
perioperative, total parenteral nutrition and, 6
postoperative lipid metabolism and, 132
ropivacaine *vs.* ropivacaine with fentanyl, for labor analgesia, 31
Epidural anesthesia
historical aspects of, 122

with ropivacaine for cesarean delivery, Horner's syndrome after, 445(letter)
suppresses lipolysis during abdominal surgery, 469
Epidural blood patch, with undiagnosed subdural hematoma, seizures and, 433
Epidural catheter
entrapped, computed tomography of, 517
foraminal injection of sacral nerve root, 214
Epidural fibrosis, replacement of spinal cord stimulation electrode and, 353
Epidural space
endoscopy, for sciatica diagnosis, 343
fat, failed epidural analgesia and, 494
injectate spread in, 150
thoracic, ultrasound imaging of, 200
Epiduroscopy, for diagnosis of spinal root pathology, 343
Epinephrine, addition to intrathecal fentanyl, with/without bupivacaine, 374
Epinephrine test dosage, in preventing local anesthetic toxicity, 556, 568
Erythema, in burn injury, dexamethasone and, 254

Femoral nerve block
patient-controlled *vs.* continuous, 604
percutaneous electrode guidance for, 261
preoperative assessment, 618
single-injection, effect on rehabilitation and length of hospital stay for knee replacement, 139
Fentanyl
attenuation of surgery-induced tumor promotion, 197
intrathecal
added to hyperbaric ropivacaine for cesarean delivery, 600
addition of epinephrine with/without bupivacaine, 374
pruritus after, ondansetron for, 538(letter)
vs. epidural local anesthetics for labor analgesia, 23
with ropivacaine, for labor analgesia, 31
Fiberoptic intubation, airway regional anesthesia for, 180
Fluoroscopy guidance, of epidural catheter, for sacral nerve root injection, 214
Forearm intravenous regional anesthesia, ropivacaine *vs.* lidocaine for, 595
Formalin orofacial behavioral response, gabapentin dose-dependent antinociception in, 277
Fracture pain, bupivacaine/morphine periosteal infusion for, 316
Free fatty acids
intra- and postoperative concentrations in epidural blockade, 469
postoperative, epidural analgesia and, 132
Functional magnetic resonance imaging, for pain research/medicine, 68

Gabapentin
dose-dependent antinociception in orofacial formalin test, 277
membrane calcium currents in mammalian primary afferent neurons, 47
for postamputation phantom limb pain, 481
Gaston Labat Award, 501, 503
Gastrointestinal surgery, multimodal analgesia with intravenous nutrition for, 15
General anesthesia, postherniorrhaphy urinary retention and, 587, 612
Glossopharyngeal block, for awake fiberoptic intubation, 180
Glucagon
intra- and postoperative concentrations in epidural blockade, 469
postoperative, epidural analgesia and, 132
Glycerol
intra- and postoperative concentrations in epidural blockade, 469
postoperative, epidural analgesia and, 132

Hand surgery
brachial plexus block for, 402
intravenous forearm regional anesthesia, ropivacaine *vs.* lidocaine for, 595
Healthy patients, hypnosis effect on heat detection and heat pain thresholds, 43
Heart
local anesthetic toxicity. *See* Cardiotoxicity, of local anesthetics
myocardial contractility, local anesthetic effects on, 460
Heat detection, hypnosis effect on, 43
Heat pain threshold, hypnosis effect on, 43
Hernia surgery. *See* Inguinal herniorrhaphy
Hip arthroplasty, oral anticoagulants with regional anesthesia for, 112(letter)
Hip pain, combined lumbar and sacral plexus block for, 226(letter)
Historical perspective
axillary brachial plexus block, 333(letter)
contributions of John Lundy, 322
on epidural analgesia and anesthesia, 122
Touhy, Edward, 520
Horner's syndrome, after epidural anesthesia with ropivacaine for cesarean delivery, 445(letter)
Hospitalization for knee replacement, effect of single-injection femoral nerve block on, 139
Hyaluronidase, in combination anesthetic epidural injection for sciatic pain, 343
Hyperalgesia
in burn injury, dexamethasone and, 254
CCI-induced, TNF-alpha expression in brain during, 357
ketamine ointment and, 524
Hypnosis
effect on heat detection and heat pain thresholds, 43
vs. drug-based sedation for regional anesthesia procedures, 622(letter)
Hypoxia, after interscalene block, 94

Imaging techniques. *See specific imaging techniques*
in regional anesthesia, 240
safety of spinal endoscopy and, 621(letter)
Incisional pain, postoperative mechanisms of, 514

Indomethacin, attenuation of surgery-induced tumor promotion, 197
Infiltration anesthesia duration, tonicaine *vs.* lidocaine, 173
Infraclavicular plexus block
with lateral approach and nerve stimulation, 37
review of, 402
single *vs.* multiple injection, 590
Inguinal herniorrhaphy
anesthetic technique, urinary retention and, 587
peripheral *vs.* paravertebral somatic nerve block for, 476
postoperative urinary retention, anesthetic technique and, 587, 612
Insulin postoperative levels, epidural analgesia and, 132
Intellectual work, lack of attribution for, 239
Intercostobrachial nerve block, review of, 402
Interscalene nerve block
hypoxia after, 94
with nerve stimulator, pectoralis major motor response endpoint for, 491
patient-controlled, portable pump for, 100
percutaneous electrode guidance for, 261
review of, 402
Intersternocleidomastoid block, review of, 402
Intrabursal continuous infusion, for postoperative analgesia, 145
Intractable hiccups, therapeutic phrenic nerve block, ultrasonography with neurostimulation for, 306
Intradiscal electrothermal therapy, cauda equina syndrome after, 622(letter)
Intrathecal administration
baclofen, for complex regional pain syndrome, 90
bupivacaine
hyperbaric, dose response in postpartum tubal ligation, 284
with morphine, attenuation of surgery-induced tumor promotion, 197
fentanyl. *See* Fentanyl, intrathecal
lidocaine, neurotoxicity in rats, 58
morphine
antinociception potentiation by cyclooxygenase-2 inhibition, 451
conversion to oral methadone, 319
vs. epidural local anesthetics for labor analgesia, 23
ropivacaine
high failure rate of small dosages, 533(letter)
small-dose, high failure rate of, 533(letter)
sufentanil
dosing of, 109(letter)
vs. epidural local anesthetics for labor analgesia, 23
Isolated heart model, cardiotoxicity of local anesthetics in, 545
Isotope tracing, assessment of lipolysis during epidural blockade, 469

Ketamine
preemptive analgesic effect of, 249
topical, for complex regional pain syndrome type I, 524
Knee surgery. *See also* Total knee replacement
oral anticoagulants with regional anesthesia for, 112(letter)
postoperative analgesia, patient-controlled *vs.* continuous femoral nerve block with ropivacaine, 604

Labor analgesia
contributions of Edward Touhy, 520
entrapped epidural catheter, computed tomography of, 517
epidural
local anesthetics *vs.* intrathecal opioids, 23
patient-controlled for parturient with CIDP, 217
psoas abscess and vertebral osteomyelitis after, 220
ropivacaine *vs.* ropivacaine with fentanyl, 31
intrathecal fentanyl, addition of epinephrine with/without bupivacaine, 374
perioperative mortality, Eisenmenger's syndrome and, 509
Lactate postoperative levels, epidural analgesia and, 132
Lead revision, epidural fibrous sheath for, 353
Levobupivacaine
for caudal blockade in children, 157
myocardial depression prediction in canines, 460
product labeling, toxicity risk and, 562
Lidocaine
for airway anesthesia for fiberoptic bronchoscopy, 180
with amethocaine, for topical anesthesia in pediatric venopuncture-induced pain, 289
cardiac toxicity in intact isolated heart model, 545
derivatives. *See* Tonicaine
infiltration anesthesia, duration, *vs.* tonicaine, 173
intrathecal, posterior root axonal degeneration and, 58
low-dose intravenous, for proctalgia fugax, 97
myocardial depression prediction in canines, 460
neurotoxicity in rats, 58
postoperative apnea in former preterm infant, 110(letter), 111(letter)
product labeling, toxicity risk and, 562
vs. ropivacaine, in forearm regional anesthesia, 595
Lipid postoperative metabolism, epidural analgesia and, 132
Lipolysis suppression, by epidural blockade during abdominal surgery, 469
Lithotomy position, effect on vertebral structures during MRI, 429
Local anesthetics. *See also specific local anesthetics*
for airway anesthesia for fiberoptic bronchoscopy, 180
atracurium addition, effect on akinesia in peribulbar block, 487
for brachial plexus block, 402
buprenorphine addition, prolongation of axillary brachial plexus block, 162
cardiotoxicity. *See* Cardiotoxicity, of local anesthetics
epidural *vs.* intrathecal opioids, for labor analgesia, 23
neurotoxicity risk minimization, 576
with opioid, for brachial plexus block, 336(letter)
overdose, prevention of, 568
postherniorrhaphy urinary retention and, 587, 612
prediction of myocardial depression in canines and, 460

sodium bicarbonate addition to, 328(letter)
systemic toxicity and cardiotoxicity of, 556
toxicity, regional anesthesia and, 543
toxicity risk, product labeling and, 562
Lower-extremity nerve block, preoperative assessment, 618
Lumbar plexus block
opioid-free, after total knee arthroplasty, 105
with sacral plexus block for hip pain, 226(letter)
Lumbar radiculopathy, nerve root injection using directed epidural catheter, 214
Lundy, John, 322

Magnetic resonance imaging (MRI), mechanical effects of leg position on vertebral structures, 429
Mandibular nerve block, for hypoxic-ischemic encephalopathy associated trismus, 313
Mayo Clinic, peripheral and neuraxial nerve blocks, Lundy's contributions to, 322
Median nerve block, percutaneous electrode guidance for, 261
Mepivacaine, cardiac toxicity in intact isolated heart model, 545
Meta-analysis
intrathecal opioids *vs.* epidural local anesthetics for labor analgesia, 23
rationale for, 3
Methadone, conversion from intrathecal morphine, 319
Methylprednisolone acetate, in combination anesthetic epidural injection for sciatic pain, 343
Morphine
attenuation of surgery-induced tumor promotion, 197
with bupivacaine
for postoperative analgesia, 145
sternal periosteal infusion, 316
continuous intrabursal infusion, for postoperative analgesia, 145
intrathecal
conversion to oral methadone, 319
plus bupivacaine, attenuation of surgery-induced tumor promotion, 197
potentiation by cyclooxygenase-2 inhibition, 451
preemptive analgesic effect, 249
Motor block, comparison of racemic bupivacaine, ropivacaine and levobupivacaine for, 157
MRI (magnetic resonance imaging), mechanical effects of leg position on vertebral structures, 429
Multimodal analgesia
efficacy of intravenous nutrition and, 15
postoperative, intravenous nutrition and, 535(letter), 536(letter)
preemptive, for anterior cruciate ligament surgery, 225(letter)
Multiple sclerosis, total hysterectomy, combined spinal-epidural technique for, 540(letter)
Myeloscopy, future of, 342
Myocardial contractility, local anesthetic effects on, 460

Needle placement, nerve localization for. *See* Nerve localization
Nefopam, for prevention of shivering during neuraxial anesthesia, 380
Nerve blocks. *See* Peripheral nerve blocks; *specific types of nerve blocks*
Nerve localization
for brachial plexus block, 402
by nerve stimulation. *See* Nerve stimulation; Nerve stimulators
parasthesia-nerve stimulation relationship and, 227(letter)
paresthesia and, 227(letter)
by percutaneous electrode guidance, 245, 261
Nerve regeneration, cervical sympathetic ganglia block for, 268
Nerve root
distribution of epidural solution and, 150
injection, fluoroscopy guidance for, 214
Nerve stimulation
axillary brachial plexus block and, 327(letter)
double-, triple-, or quadruple, for axillary nerve block, 442(letter)
infraclavicular block with lateral approach, 37
paresthesia and, 227(letter)
Nerve stimulators
for infraclavicular plexus block, 590
for interscalene block, pectoralis major motor response endpoint for, 491

educational changes in, 1, 9
novel approach for, 456
Ropivacaine
for caudal blockade in children, 157
continuous infusion, *vs.* PCA for postoperative analgesia, 168
epidural
for cesarean delivery, Horner's syndrome after, 445(letter)
with fentanyl, for labor analgesia, 31
hyperbaric, for cesarean delivery, intrathecal fentanyl added to, 600
intrathecal small-dose, high failure rate of, 533(letter)
myocardial depression prediction in canines, 460
patient-controlled analgesia
vs. bupivacaine plus sufentanil, 367
vs. continuous femoral nerve block, 604
vs. continuous infusion for postoperative pain, 168
product labeling, toxicity risk and, 562
vs. lidocaine, in forearm regional anesthesia, 595

Sacral nerve root, directed epidural catheter for injection of, 214
Sacral plexus block
with lumbar plexus block for hip pain, 226(letter)
posterior approach to, 333(letter)
Safety, of spinal endoscopy, 621(letter)
Sciatic nerve block
posterior approach, 333(letter)
preoperative assessment, 618
subgluteus, *vs.* PCA for postoperative analgesia, 168
Sciatic pain, targeted methylprednisolone acetate/hyaluronidase/clonidine injection for, 343
Sedatives, *vs.* clinical hypnosis for regional anesthesia procedures, 622(letter)
Seizures, after epidural blood patch with undiagnosed subdural hematoma, 433
Shivering, prevention during neuraxial anesthesia, nefopam and tramadol for, 380
Shoulder surgery, brachial plexus block for, 402
Single-injection technique, femoral nerve block, effect on rehabilitation and length of hospital stay for knee replacement, 139
Single photon emission computed tomography, of regional cerebral blood flow after ECT
case report, 211
in CRPS type I, 529
Sodium bicarbonate, addition to local anesthetics, 328(letter)
Spinal anesthesia
for cesarean delivery, hyperbaric ropivacaine with intrathecal fentanyl for, 600
intrathecal small-dose ropivacaine, high failure rate of, 533(letter)
leg position effects on vertebral structures during MRI, 429
lidocaine, neurotoxicity in rats, 58
Spinal canal, distribution of epidural solution in, 150
Spinal cord, TNF alpha expression during neuropathic pain, 357
Spinal cord stimulation, electrode replacement during, 353
Spinal endoscopy safety, imaging and, 621(letter)
Stellate ganglion block, near-infrared spectroscopy of, 111(letter)
Sternal fracture, bupivacaine/morphine periosteal infusion for, 316
Stress response, multimodal analgesia with intravenous nutrition and, 15
Subacromial arthroscopy, postoperative analgesia, continuous intrabursal infusion with morphine and bupivacaine, 145
Subdural compartment, imaging, 72
Subdural hematoma, undiagnosed, seizures after epidural blood patch and, 433
Subgluteus sciatic nerve block, *vs.* PCA for postoperative analgesia, 168
Sub-tenon infiltration, for postoperative pain in children, 336(letter)
Sufentanil
with bupivacaine, *vs.* ropivacaine for thoracic epidural PCA, 367
intrathecal
dosing of, 109(letter)
vs. epidural local anesthetics for labor analgesia, 23
Superior laryngeal nerve block, for awake fiberoptic intubation, 180
Supraclavicular nerve block, review of, 402
Supscapular nerve block, review of, 402

Tachyphylaxis, after epidural analgesia associated with epidural fat, 494

Temporal factors, sodium bicarbonate addition to local anesthetics, 328(letter)
Tetracaine, cardiac toxicity in intact isolated heart model, 545
Thalamus, regional cerebral blood flow after ECT for CRPS type I, 529
Thermal injury, dexamethasone analgesic effects in, 254
Thermal threshold, hypnosis effect on, 43
Thoracic epidural blockade
  patient-controlled, with ropivacaine *vs.* bupivacaine plus sufentanil, 367
  suppresses lipolysis during abdominal surgery, 469
Thoracic epidural space, ultrasound imaging of, 200
Tonicaine infiltration anesthesia, duration of, 173
Topical analgesia
  of airway, for fiberoptic bronchoscopy, 180
  amethocaine-lidocaine, for venopuncture-induced pain in children, 289
  compounded by specialty pharmacies, Internet survey of, 309
  ketamine, for complex regional pain syndrome type I, 524
Total hysterectomy in multiple sclerosis, combined spinal-epidural technique for, 540(letter)
Total knee replacement
  opioid-free analgesia, 105
  rehabilitation and length of hospital stay, single-injection femoral nerve block and, 139
Total parenteral nutrition, perioperative epidural analgesia and, 6
Touhy, Edward, 520
Touhy needle, development, 520
Tourniquet tolerance, infraclavicular block with lateral approach, 37
Tramadol, for prevention of shivering during neuraxial anesthesia, 380
Transient neurologic symptoms, etiology, risk factors and management, 581
Translaryngeal nerve block, for awake fiberoptic intubation, 180
Transperitoneal tumor nephrectomy, preemptive analgesia for, 249
Trigeminal nerve regeneration, cervical sympathetic ganglia block for, 268
Trismus, hypoxic-ischemic encephalopathy associated, mandibular nerve block for, 313
Tsui test, for epidural space identification, 494
Tumor necrosis factor alpha, expression in brain during persistent pain, 357

Ulnar nerve block, percutaneous electrode guidance for, 261
Ultrasonography
  for brachial plexus anesthesia guidance, 77
  with neurostimulation for therapeutic phrenic nerve block, 306
  of thoracic epidural space, 200
Ultrasound Doppler flowmeter, for occipital nerve block, 444(letter)
Urinary retention, postherniorrhaphy, anesthetic technique and, 587, 612

Venopuncture-induced pain, topical anesthesia for, 289
Vertebral osteomyelitis, and psoas abscess after obstetric epidural anesthesia, 220
Vibration sensation testing, over medial malleolus, 447(letter)
